

## **ENVIRONMENTALIST IV Position #19128**

The New Hampshire Department of Environmental Services (DES), Waste Division, Hazardous Waste Remediation Bureau has an immediate opening for a full-time Environmentalist IV. Responsibilities include supervising the regulatory management of complex hydrogeological investigations and providing expertise in the design and implementation of remedial actions for sites with contaminated groundwater. The ideal candidate should possess a strong technical background in both site investigation and remediation, preferably experience covering a range of environmental contaminants. Additionally, the candidate should possess strong communication skills, both verbal and written, and be able to discuss investigation strategies and remedial actions with responsible parties, industry representatives, consultants, and attorneys.

Minimum qualifications for this position are a bachelor's degree from a recognized college or university with major study in environmental science, chemistry, geology, hydrology, hydrogeology, environmental conservation or engineering and six years' experience as an Environmental Engineer or Environmentalist in the area of environmental science, chemistry, geology, hydrology, hydrogeology, environmental conservation or engineering, two of which shall have involved supervisory duties as well as preparation of various environmental documents, legal briefs or related research. Each additional year of formal education may be substituted for one year of required work experience.

**SPECIAL REQUIREMENTS:** Position requires on-site presence and work at uncontrolled oil and hazardous waste sites in accordance with the requirements mandated by federal and state regulations and the terms of state/EPA cooperative agreements. Therefore, as a condition of initial employment, the job candidate must satisfactorily complete a baseline medical examination, and the employee must maintain the level of health and safety training appropriate to their job functions based on the requirements of the Occupational Safety and Health Agency or other federal and state agencies.

The salary range for this position is \$53,898.00 - \$63,999.00. Three additional steps may be awarded based on successful performance evaluations. The selected candidate must satisfactorily pass criminal background and motor vehicle checks and will have to pay a union/agency fee at a future date. For further information on the responsibilities for this position, contact Karlee Kenison, Hydrogeologist V, (603)271-6542 or e-mail at: [karlee.kenison@des.nh.gov](mailto:karlee.kenison@des.nh.gov).

We offer an attractive benefits package.
